### Pixafy

*April 2015 to October 2015*

#### Software Engineer

Developing a Magento based eCommerce platform.

#### Projects:

- Developed a Laravel based analytic tracking interface that would aggregate analytic data from nodes then present relevant information to user.
- Designed and develop an interface between Amazon S3 and Pixafy nodes to back up node databases and media folders.
- Developed a 'multi-store' data migration to Magento from several eCommerce platforms.

**Technologies:** Magento, Laravel, PHP, JavaScript, jQuery, HTML5, CSS3, MySQL, Linux , Apache, Nginx, Git, Ansible, Bootstrap

### iMedicWare, Inc.

*August 2014 to May 2015*

#### Full Stack Developer

Designing and developing web based HL7 interfacing applications.

#### Projects:

- Designed and developed full featured, HIPAA compliant 'Patient Portal' web application. Allows patients to pay bills, view chart notes, and request appointments from their PCs, Tablets, and Mobile devices.

- Integrated Driving License Barcode Scanner into a web application. Clients are able to scan PDF417 barcodes and extract demographic information that is automatically read into the application.
- Implemented and configured Ansible to allow for continuous delivery. Replaced a week long task of deploying code to clients with an automated task that can be run in an hour.

**Technologies:** PHP, JavaScript, jQuery, HTML5, CSS3, MySQL, Linux (CentOS), Apache, Subversion, Ansible, Bootstrap

## **Tekmark Global Solutions - Verizon Redbox Instant Project**

*September 2013 to July 2014*
